

AIRSPEC® SUBMERSIBLE ROOTS BLOWER

Low noise:

EVW series could reduce vibration and extend bearing life for tri-lobes design. Due to sinking installation and the noise will be absorbed by pool. EVW series applicable to school, building, community and hospital.

Less trouble:

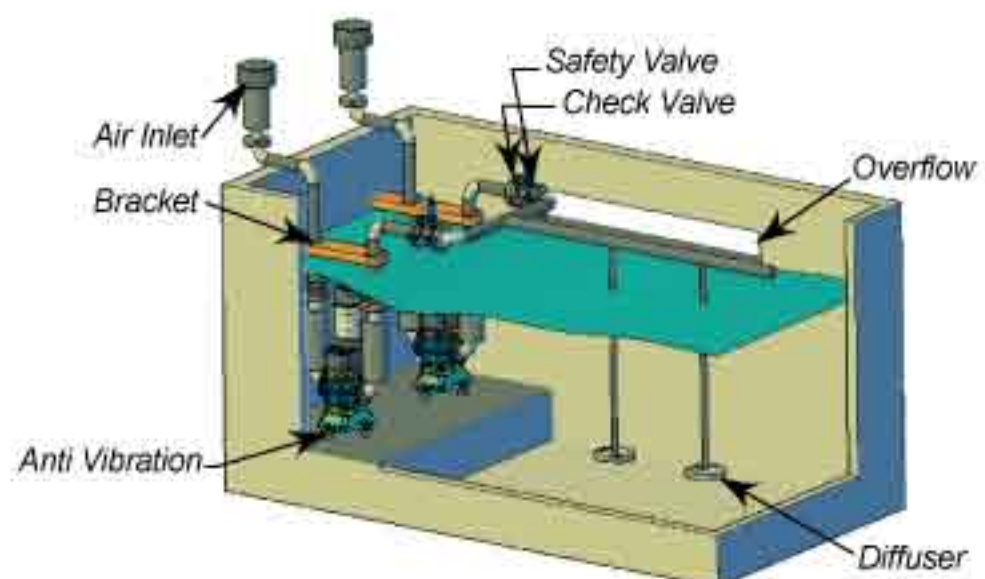

It's not necessary for belt and pulley because EVW series design direct drive system for raising high efficiency and reducing failure factor. EVW series motor will install cutter over device to prevent overload and overheat.

Easy installation:

EVW series are not necessary to fix on foundation, saving space and piping cost.
